# Clatsop County, OR 1958

## A HISTORY

Emma Gene Miller

Burton + Mint, PDX OR

Oregon Gov. govt establishes in 1843

of claims stated 320 acres were to John Jewett

Clat Morrison built house on c. plains in 1845. Mr Harrod Tagg lived there in 1958 - all home on 101 ?)

By 1846 there were 95 white people living in Clatsop co. Any wheat that was grown had to be taken by canoe to One City, a 140 mile distance. At that time it was grown for flour.

John + Harriett Jewett bought L. Stone govt claim for 500 good pieces that she kept hidden in her beet during the period she was captive at the Whitman Massacre in 1847. The Jewetts held their land until 1869 when it was sold to their sons, who then deeded it to Josiah West in 1872. His farm was one of 146 in the region by 1880, when the population also increased to 7200.

Milk production had increased to the point that butter was sent to S. F. in a small ship that the farmers and merchants had built. P. Nest's cheese factory in Clatsop Plain was the largest of 3 and he shipped his cheese to Portland and Astoria or at the larger hotels in Clatsop co. at the time, cheese sold for 60¢ lb. Nest also sold the wild mushrooms that were growing on his land.

? (a gate was installed on Grimes(?) property as not all were welcome that beach road.)
